### **Love All**

Love is one quality that is common to all human beings, nay, animals, birds, beasts, and even insects. Every living being loves its progeny. And, love is divine. Whoever cultivates love, God manifests in them. It is only the divine quality of love that saves us from sorrows, difficulties, and calamities. Unfortunately, people do not cultivate love and instead go after transient things. "Love is God, live in love." Worldly possessions give momentary pleasure, but love confers eternal bliss. Real love manifests from the depth of one's own heart. One has to attain such divine love. Wherever you go, whatever activity you may undertake, let your heart be filled with love. Such a person, wherever he is, whether in the town or in the forest or in the sky or in a deep sea will surely be protected. Divine love neither grows nor diminishes. It always remains the same.

Be Good, Do Good, See Good.
